EDUCATION

B.Arch, Architecture — İzmir Institute of Technology
Graduated · GPA: 3.2/4.00

Sep 2021 – Jun 2026

WORK EXPERIENCES

- Architectural Intern — Design Development & Plan Production — **Ulema ve Ulema Mimarlık** Jul 2025 – Aug 2025
 - Contributed to active projects by translating conceptual design ideas into detailed architectural plans using Archicad and AutoCAD, enabling the design team to move efficiently from concept to implementation without revision delays.
 - Produced coherent, project-driven spatial layouts by collaborating with a multidisciplinary design team and incorporating sustainable design considerations throughout the design process.
- Architectural Intern — Site Supervision & Design-to-Build Coordination — **Viven Construction** Jul 2024 – Sep 2024
 - Ensured alignment between design specifications and on-site execution by monitoring construction processes and reviewing structural details, reducing the potential for on-site rework.
 - Gained hands-on insight into construction methods by coordinating with on-site teams throughout the project, strengthening the connection between architectural planning and real-world implementation.
- Architectural Intern — Architectural Survey & Heritage Documentation — **Bayraklı Excavation Site** Aug 2023
 - Prepared technical drawings and construction documents with precision, ensuring compliance with survey and documentation standards to support the excavation project's design development process.
 - Created visualization and presentation assets that enhanced the communication of design intent, contributing to clearer stakeholder understanding and more informed decision-making.

WORKSHOPS & COMPUTATIONAL DESIGN

- DigitalFUTURES Workshop — AI-Assisted Spatial Design — International Team Jul 2024
 - Investigated AI-driven plan generation and façade studies using HouseGAN++, applying computational design and visualization techniques within an international team to develop spatial design strategies.
- Bodrum Stone Workshop — Adaptive Reuse & Heritage Survey — Gümüşlük Academy Foundation, Bodrum Sep 2024
 - Conducted architectural surveys and adaptive reuse analyses of historic Republic-era buildings, applying sustainable design and heritage preservation principles to stone-built structures.

SKILLS

Software: Archicad, Revit, SketchUp, AutoCAD, Twinmotion, Adobe Photoshop, Adobe InDesign, Microsoft Office

Design Focus: Interior design, plan development, sustainable design, adaptive reuse, architectural visualization, AI-assisted design (HouseGAN++)

Awards: Honorable Mention, Nature/Wildlife Photography Competition — organized by the IZTECH Sustainable Green Campus Coordination Office
